

Harting

The HARTING Technology Group is skilled in the fields of electrical, electronic and optical connection, transmission and networking, as well as in manufacturing, mechatronics and software creation.

The Group uses these skills to develop customized solutions and products such as connectors for energy and data transmission applications including, for example, the telecommunications sector, rail technology, wind energy plants and factory automation. The HARTING Group currently comprises 34 subsidiary companies in Europe, America, Asia and Australia employing a total of more than 2,000 staff. As a Global Business Unit, HARTING Electronics develops and produces connectors and interconnection systems for customers in the fields of telecom/datacom and industrial electronics.
